On page 1, delete line 17 in its entirety and insert the following:

"(1) There is hereby authorized a tax credit against state income tax for Louisiana taxpayers for investment in state-certified productions, other than motion picture production companies. The

tax credit shall be earned by investors at the time expenditures are made by a motion picture production company in a state-certified production. However, credits cannot be applied against a tax or transferred until the expenditures are certified by the office and the secretary of the Department of Economic Development. For state-certified productions, expenditures shall be certified no more than twice during the duration of a state-certified production unless the motion picture production company agrees to reimburse the office for the costs of any additional certifications. The tax credit shall be calculated as a percentage of the total base investment dollars certified per project.

(a) For state-certified productions approved by the office and the secretary on or after January 1, 2004, but before January 1, 2006:

(i) If the total base investment is greater than three hundred thousand dollars and less than or equal to eight million dollars, each taxpayer shall be allowed a tax credit of ten percent of the actual investment made by that taxpayer.

(ii) If the total base investment is greater than eight million dollars, each taxpayer shall be allowed a tax credit of fifteen percent of the actual investment made by that taxpayer.

(iii) The initial certification shall be effective for a period twelve months prior to and twelve months after the date of initial certification, unless the production has commenced, in which case the initial certification shall be valid until the production is completed."

However, if the payroll to any one person exceeds one million dollars, this additional credit shall exclude any salary for that person that exceeds one million dollars.

(iii) The initial certification shall be effective for a period twelve months prior to and twelve months after the date of initial certification, unless the production has commenced, in which case the initial certification shall be valid until the production is completed."

(3)(2) The credit shall be allowed against the income tax for the taxable period in which the credit is earned or for the taxable period in which initial certification authorizes the credit to be taken. If the tax credit allowed pursuant to this Section exceeds the amount of such taxes due for such tax period, then any unused credit may be carried forward as a credit against subsequent tax liability for a period not to exceed ten years.

The carryforward period for credit that is transferred or sold begins on the date on which the credit was originally earned or, in the case of a structured infrastructure credit, the date upon which the credit is allowed to be taken earned.

(e) To the extent that the transferor did not have rights to claim or use the credit at the time of the transfer, the Department of Revenue shall either disallow the credit claimed by the transferee or recapture the credit from the transferee through any collection method authorized by R.S. 47:1561. The expenditures may be finally certified at a later date.

(v) For purposes of allowing tax credits against state income tax liability and transferability of the tax credits, the tax credits shall be deemed earned at the time the expenditures are made, provided that all requirements of this Subsection have been met and after the tax credits have been certified.

(3)(2) The credit shall be allowed against the income tax for the taxable period in which the credit is earned or for the taxable period in which initial certification authorizes the credit to be taken. If the tax credit allowed pursuant to this Section exceeds the amount of such taxes due for such tax period, then any unused credit may be carried forward as a credit against subsequent tax liability for a period not to exceed ten years.

"(4) Effective April 1, 2012, the provisions of this Subparagraph shall be implemented if and when the last official forecast of revenues adopted for a fiscal year before the start of that fiscal year contains an estimate of severance tax revenues derived from natural resources other than sulphur, lignite, or timber in an amount which exceeds the actual severance tax revenues from such natural resources collected in Fiscal Year 2008-2009. Upon the adoption of such official forecast, the Revenue Estimating Conference shall certify that the requirements for the implementation of the provisions contained in this Subparagraph have been met. In such event, the following distributions and allocations of severance tax revenues and other revenues provided in this Subparagraph shall be effective and implemented for the fiscal year for which the official forecast was adopted, and each year thereafter. The legislature shall provide by law for the administrative procedures necessary to change the severance tax allocation to parishes from a calendar year basis to a fiscal year basis.

(a) Remittance to parishes.

(i) In the first fiscal year of implementation of this Subparagraph, the maximum amount of severance tax on all natural resources other than sulphur, lignite, or timber which is remitted to the parish in which severance or production occurs shall not exceed one million eight hundred fifty thousand dollars. For all subsequent fiscal years, the maximum amount remitted to a parish shall not exceed two million eight hundred fifty thousand dollars.

(ii) On July first of each year the maximum amount remitted to the parish in which severance or production occurs, as provided in Item (i) of this Subsubparagraph, shall be increased by an amount equal to the average annual increase in the Consumer Price Index for all urban consumers for the previous calendar year, as published by the United States Department of Labor, which amount shall be as calculated and adopted by the Revenue Estimating Conference.

(iii) Of the total amount of severance tax revenues remitted in a fiscal year to a parish governing authority pursuant to the provisions of this Subparagraph, any portion which is in excess of the amount of such tax revenues remitted to that parish in Fiscal Year 2011-2012 shall be known as "excess severance tax". At least fifty percent of the excess severance tax received by a parish governing authority in a fiscal year shall be expended within the parish in the same manner and for the same purposes as monies received by the parish from the Parish Transportation Fund.

(b) Deposit into the Atchafalaya Basin Conservation Fund.

(i) Notwithstanding any other provision of this constitution to the contrary, after allocation of money to the Bond Security and Redemption Fund as provided in Article VII, Section 9(B) of this constitution, and after satisfying the required allocations in Subsubparagraph (a) of this Subparagraph, Paragraph (E) of this Section, and Article VII, Sections 10-A and 10.2 of this constitution, an amount equal to fifty percent of the revenues received from severance taxes and royalties on state lands in the Atchafalaya Basin, but not to exceed ten million dollars each fiscal year, shall be

deposited by the treasurer into the Atchafalaya Basin Conservation Fund, hereinafter referred to as the "fund", which is hereby created as a special fund in the state treasury. The monies in the fund shall be invested by the treasurer in the manner provided by law, and interest earned on the investment of these monies shall be deposited in and credited to the fund. All unexpended or unencumbered monies remaining in the fund at the end of the fiscal year shall remain in the fund.

(ii) The monies in the fund shall be used exclusively for projects contained in the state or federal Basin master plans or an annual Basin plan developed and approved by the advisory or approval board created by law specifically for that purpose, or to provide match for the Atchafalaya Basin Floodway System, Louisiana Project. Each year's plan for the expenditure of monies appropriated from the fund shall be subject to the approval of the appropriate subject matter committees of the legislature.

(iii) Of the monies appropriated in any fiscal year, eighty-five percent shall be used for water management, water quality, or access projects, and the remaining fifteen percent may be used to complete ongoing projects and for projects that are in accordance with the mission statement of the state master plan. However, no more than five percent of the monies appropriated in any fiscal year may be used for the operational costs of the program or the department."

If, after opportunity for hearing and review, the board determines that an appraiser did not commit a violation of law, a violation of the Uniform Standards of Professional Appraisal Practice, or a violation of state licensing standards, the board shall order that an appraiser be reinstated to the appraiser panel of the appraisal management company that was the subject of the complaint without prejudice.

E.
