§51. Exclusions from gross income; governmental subsidies
Funds accrued by a corporation engaged in operating a public transportation system from any federal, state or municipal governmental entity to subsidize the operation and maintenance of such a transportation system shall not be included in gross income and shall be exempt from taxation under this Chapter. All expenses of operating the transit system incurred by the corporation shall be deductible in arriving at net income.

taxable year for which the return is made computed with or without
regard to percentage depletion, and the depletion allowance in respect
of such property for such year and all succeeding taxable years shall
be computed according to the election thus made. If the taxpayer
fails to make such statement in the return, the depletion allowance for
such property for all taxable years shall be computed without
reference to percentage depletion. This Subsection shall not be construed
as granting a new election to any taxpayer relative to any
property with respect to which he has filed a return under Act 21 of
1934.

§246. Corporations; deduction from net income from Louisiana
sources

with the taxable period in which the capital company is certified by the
commissioner. The exemption from the corporation franchise tax shall
never expire.

from the corporation income tax shall commence with the taxable
period in which the capital company is certified by the commissioner.

The exemption from the corporation franchise tax shall commence

certification as a LCDFI is obtained from the commissioner.

Section 5.(A) Except as provided for in Subsection (B) of this

extension has been allowed prior to July 1, 2015, then any portion of

the amount of one-third of the disallowed portion of the exclusion or
deduction on the taxpayer's return for each of the taxable years

The tax credit shall be earned by investors in a production, a motion picture production company at the time expenditures are made by a motion picture production company in a state-certified production. However, credits cannot be applied against a tax or transferred until the expenditures are certified by the office and the secretary. For state-certified productions, expenditures shall be certified no more than twice during the duration of a state-certified production unless the motion picture production company agrees to no additional certifications once per production, after project completion. However, if at the time of application for initial certification, the office is notified that post-production activities will take place in Louisiana, a supplemental request for certification of expenditures directly related to such post-production activity may be submitted for consideration by the office. The cost of any verification or audit of such expenditures shall be borne by the motion picture production company. The tax credit shall be calculated as a percentage of the total base investment dollars certified per project.

(a) For state-certified productions approved by the office and the secretary on or after January 1, 2004, but before January 1, 2006, (i) The initial certification shall be effective for qualifying expenditures made within a period twelve months prior to and twelve months after the date of initial certification; unless the production has commenced, in which case the initial certification shall be valid until the production is completed.

(ii) For state-certified productions approved by the office and the secretary after January 1, 2006:

(b) For state-certified productions approved on or after January 1, 2006, but before July 1, 2009:

(i) The initial certification shall be effective for qualifying expenditures made within a period twelve months prior to and twelve months after the date of initial certification; unless the production has commenced, in which case the initial certification shall be valid until the production is completed.

(ii) For state-certified productions approved on or after July 1, 2009:

(iii) The initial certification shall be effective for qualifying expenditures made within a period twelve months prior to and twelve months after the date of initial certification; unless the production has commenced, in which case the initial certification shall be valid until the production is completed.

(2) The credit shall be allowed against the income tax for the taxable period in which the credit is earned or for the taxable period in which initial certification authorizes the credit to be taken. If the tax credit allowed pursuant to this Section exceeds the amount of such taxes due for such tax period, then any unused credit may be carried forward as a credit against subsequent tax liability for a period not to exceed ten years.

(4) Transferability of the credit. Any motion picture tax credits not previously claimed by any taxpayer against its income tax may be transferred or sold to another Louisiana taxpayer or to the office, subject to the following conditions: (3) Application of the credit.

additional information as may be necessary to administer the provisions of this Section. The secretary of the Department of Revenue shall make payment to the investor in the amount at which he is entitled from the current collections of the taxes collected pursuant to Chapter 1 of Subtitle II, of this Title provided such tax credits were neither denied nor certified due to insufficient qualifying expenditures verified by the office. Any expenditures for the state-certified production to the investor shall immediately upon receipt of the report and may require additional information needed to make a determination to the investor for all expenditures for the state-certified production pursuant to this Subparagraph, nor transfer tax credits pursuant to Paragraph (C)(4) of this Section, nor transfer tax credits pursuant to Paragraph (C)(4) of this Section. A bad faith holder is a person who participated in material misrepresentation or fraudulent acts in connection with the certification of tax credits pursuant to this Section, or who prior to or at the time of certification of such tax credits knew or reasonably should have known of such material misrepresentation or fraudulent acts, or a legal entity owned or controlled by such a person. Upon a determination of bad faith by the Department of Revenue such tax credits shall be deemed disallowed as to the bad faith holder.

(2) Tax credits previously transferred pursuant to Subparagraph (C)(4)(i) of this Section or claimed by a bad faith holder, but subsequently disallowed, may be recovered by the secretary of the Department of Revenue through any collection remedy authorized by R.S. 47:1561, plus interest and penalties provided by law for the delinquent payment of taxes, and the Department of Revenue may recapture any amounts and other damages from a bad faith holder using any collection remedy authorized by law.

(3) In the event tax credits obtained through material misrepresentation or fraudulent acts are claimed by a taxpayer who is not a bad faith holder, the Department of Revenue shall have the right of recourse against a bad faith holder as provided to a transferee pursuant to Paragraph (C)(4)(e).

(4) The provisions of this Subsection are in addition to and shall not limit the authority of the secretary of the Department of Revenue to assess or to collect under any other provision of law.

I. Recovery of credits by Department of Revenue. (1) Credits previously granted to a taxpayer but later disallowed, may be recovered by the secretary of the Department of Revenue through any collection remedy authorized by R.S. 47:1561 and initiated within three years from December thirty-first of the year in which the twenty-four-month investment period specified in Subsection E of this Section ends.

(2) The only interest that may be assessed and collected on recovered credits is interest at a rate three percentage points above the rate provided in R.S. 9:3500(B)(1), which shall be computed from the date of the return on which the credit was taken to the date that such credits are earned, then the investor's state income tax for such taxable period shall be increased by such amount necessary for the recapture of credit provided by this Section.

(3) The provisions of this Subsection are in addition to and shall not limit the authority of the secretary of the Department of Revenue to assess or to collect under any other provision of law.

Prescription. Tax credits previously granted to a taxpayer, but later disallowed pursuant to the provisions of Subsection E of this Section, may be recovered by the secretary of the Department of Revenue through any collection remedy authorized by R.S. 47:1561 and initiated within the latter of any of the following:

(1) Two years from December thirty-first in the year in which the tax credit was paid in accordance with Item (C)(4)(i) of this Section.

(2) Three years from December thirty-first in the year in which the taxes for the filing period were due.

(3) Three years from December thirty-first in the year in which the final tax credit certification letter was issued.
Section 5. The provisions of this Act shall only become effective on January 1, 2016.

Section 4. Except as provided for in Section 5, the provisions of this Section and Sections 1 and 2 of this Act shall become effective on July 1, 2015.

Section 2. The time period for which prescription has been extended, as provided by R.S. 47:1580.

H. Audit reports for certification of expenditures for state-certified motion picture infrastructure program tax credits shall be submitted in accordance with the provisions of this Subsection.

(1) State-certified infrastructure project applicants may submit to the office on or before December 31, 2015, all requests and required documentation for final certification of all tax credits granted by this provision, after which time all such claims to tax credits shall be deemed waived.

(2) Any request shall be accompanied by an audit performed by an independent certified public accountant.

(3) The office, the secretary, and the division shall review the audit, and may require additional information needed to make a determination as to certification.

(4) The office may request an additional audit report of expenditures submitted by the state-certified motion picture infrastructure project applicant, with the cost of the additional report paid by the applicant.

(5) Within three hundred and sixty five days after receipt of the audit report and all required supporting information, or December 31, 2016, whichever occurs first, the office, the secretary, and the division shall issue a denial letter or a tax credit certification letter to the investors indicating the amount of tax credits certified for the state-certified infrastructure project for all qualifying expenditures verified by the office.

(6) Tax credits provided for in this Section shall not be considered entitlements, and the state-certified motion picture infrastructure applicant shall bear the burden of clearly and unequivocally establishing eligibility for tax credits.

(7) In the event that a request for final certification is denied, an applicant may appeal the decision in accordance with program rules.

(8) No motion picture infrastructure tax credits shall be certified after July 1, 2017.

   (1) There is hereby authorized the following types of credits against the state income tax:
      (a) * * *
      (ii) * * *
   (bb) For state-certified higher education musical or theatrical infrastructure projects that receive initial certification on or before January 1, 2018, a base investment credit may be earned for expenditures made in the state on or before January 1, 2022, for the construction, repair, or renovation of a new state-certified higher education musical or theatrical facility infrastructure project, or for investments made by a company or a financier in such infrastructure project that are, in turn, expended for such construction, repair, or renovation. No more than ten million dollars in tax credits per project or sixty million dollars total in tax credits shall be granted for state-certified higher education musical or theatrical infrastructure projects. Twenty-five percent of the total base investment provided for in the initial certification letter of a state-certified higher education musical or theatrical infrastructure project must be expended on or before January 1, 2020, in order for the project to earn credits for the remaining estimated base investment provided for in the initial certification letter, as expenditures are made in the state on or before January 1, 2022. No credits shall be certified until the state-certified higher education musical or theatrical infrastructure project is complete. The initial certification letter shall be effective for qualified expenditures made no more than six months prior to the date of application. State-certified higher education musical or theatrical infrastructure projects shall not be subject to the provisions of Subitem (cc) of this Item nor shall such projects be subject to the provisions of Subsection H of this Section.

   (iii) Except as limited for state-certified infrastructure projects as provided for in this Subparagraph, the base investment shall be for the following amounts:
      (aa) If the total base investment is greater than one hundred thousand dollars and less than or equal to three hundred thousand dollars, a company shall be allowed a tax credit of ten percent of the base investment made by that company.
      (bb) If the total base investment is greater than three hundred thousand dollars and less than or equal to one million dollars, a company shall be allowed a tax credit of twenty percent of the base investment made by that company.
      (cc) If the total base investment is greater than one million dollars, a company shall be allowed a tax credit of twenty-five percent of the base investment made by that company.
      (c) An additional tax credit of one tenth of one percent of the amount expended to employ students enrolled in Louisiana colleges, universities, and vocational-technical schools in a state-certified musical or theatrical production in arts-related positions, such as actor, writer, producer, stagehand, or director, or as a technician working on aspects of the production such as lighting, sound, and actual stage work, or working indirectly on the production in accounting, law, management, and marketing.

   D. In cases where no previous credit has been claimed pursuant to Subsection C of this Section for the cost of qualified clean-burning motor vehicle fuel property purchased by a taxpayer with qualified clean-burning motor vehicle fuel property installed by the vehicle’s manufacturer and the taxpayer is unable to, or elects not to determine the exact cost which is attributable to such property, the taxpayer may claim a credit against individual or corporate income tax for the taxable period in which the motor vehicle is purchased equal to ten percent of the cost of the motor vehicle or three thousand dollars, whichever is less, provided the motor vehicle is registered in this state.

§6036. Ports of Louisiana tax credits
      * * *

C. Investor Louisiana tax credits
      * * *

   (b) The Investor Tax Credit provided for in this Subsection shall be granted by the Department of Economic Development for a qualifying project if the commissioner of administration, after or before certifying the project to the Joint Economic Committee of the legislature, certifies to the secretary of the department that securing the project will result in a significant positive economic benefit to the state. "Significant positive economic benefit" means net positive tax revenue that shall be determined by taking into account direct, indirect, and induced impacts of the project based on a standard economic impact methodology utilized by the commissioner, and the value of the credit, and any other state tax and financial incentives that are used by the department to secure the project. If the commissioner with the approval of the committee so certifies then the Department of Economic Development shall grant the taxpayer a tax credit equal to the total capital costs of such qualifying project to be taken at five percent per tax year or shall grant such other amount of tax credit to be taken at such other percentage which is warranted by the significant positive economic benefit determined by the commissioner, but no tax credit granted for a qualifying project shall exceed two million five hundred thousand dollars per tax year. However, the total amount of tax credits granted on a qualifying project shall not exceed the total cost of the project. In addition, the investor tax credits granted by the department to any recipient pursuant to this Section shall be limited to an amount which shall not result in a reduction of tax liability by all recipients of such credits to exceed six million two hundred fifty thousand dollars in any fiscal year.
      * * *

I. Import-export cargo tax credit.
      * * *

(2)(a)(i) For taxable years beginning on and after January 1, 2014, there shall be allowed a credit against the individual income, corporation income, and corporation franchise tax liability of a taxpayer who has received certification pursuant to the provisions of Paragraph (1) of this Subsection; provided that the credit shall be allowed only against the tax liability of the international business entity which receives the certification. The amount of the credit shall be equal to the product of multiplying five dollars by the taxpayer’s total number of tons of qualified cargo for the taxable year which exceeds the pre-certification tonnage which is warranted by the significant positive economic benefit determined by the commissioner pursuant to Item (n) of this Subparagraph, whichever is less. For purposes of this Item, "pre-certification tonnage" means the number of tons of cargo which meets the definition of qualified cargo for purposes of this credit, and which was owned by the international business entity receiving the credit, were imported or exported to or from a manufacturing, fabrication, assembly, distribution, processing, or warehouse facility located in Louisiana, and which were so moved by way of an ocean-going vessel berthed at public port facilities in Louisiana during the 2013 calendar year. However, each tax credit granted to a taxpayer shall be subject to the same limit as is provided applicable, and shall be equal to fifty percent of the cost of the qualified clean-burning motor vehicle fuel property.
§6037. Tax credit for "green job industries"

B. Income tax credits for state-certified green projects:

(1) There is hereby authorized a base investment tax credit for certified, verified, and approved expenditures in the state for the construction, repair, or renovation of a state-certified green project.

(2) (a) Tax credits for state-certified green projects shall be earned only as follows:

(b) The base investment tax credit for state-certified green projects shall be for the following amounts:

(i) If the total base investment is greater than one hundred thousand dollars and less than or equal to three hundred thousand dollars, a company shall be allowed a tax credit of ten percent of the base investment made by that company.

(ii) If the total base investment is greater than three hundred thousand dollars and less than or equal to one million dollars, a company shall be allowed a tax credit of twenty percent of the base investment made by that company.

(iii) If the total base investment is greater than one million dollars, a company shall be allowed a tax credit of twenty-five percent of the base investment made by that company.

(c) To the extent that base investment is expended on payroll for Louisiana residents employed in connection with the construction of a state-certified green project, a company shall be allowed an additional tax credit of ten percent of the payroll; however, if the amount paid to any one person exceeds one million dollars, the additional credit shall not include any amount paid to that person that exceeds one million dollars.

§2354. Technology commercialization credit; amount; duration; forfeit

A. Except as provided in Subsection B of this Section, the taxpayer may earn and apply for and, if qualified, be granted a refundable tax credit which may be applied to any income or corporation franchise tax liability owed to the state by the taxpayer seeking to claim the credit, equal in value to forty percent of the amount of money invested by the taxpayer applicant in commercialization costs for one business location meeting the requirements of R.S. 51:2353(C)(1) and (2) as certified by the Department of Economic Development.

B. A tax credit granted pursuant to this Part shall expire and have no value or effect on tax liability beginning with the twenty-first tax year after the tax year in which it was originally earned, approved for, and granted. An applicant that meets the requirements of R.S. 51:2353 and is approved by the Department of Economic Development may receive a refundable tax credit based on new jobs for the period of time approved which shall be equal to six percent multiplied by the gross payroll of new direct jobs meeting the requirements of R.S. 51:2353(C)(3) and (4) as certified by the Department of Economic Development.

§2399.3. Modernization tax credit

A. (2)(a) The credits approved by the department shall be granted at the rate of five percent of the amount of qualified expenditures incurred by the employer for modernization with the credit divided in equal portions for five years, subject to the limitations provided for in other Paragraphs of this Subsection.

(b) The total amount of modernization tax credits granted by the Department of Economic Development in any calendar year shall not exceed ten million dollars irrespective of the year in which claimed.

C. To the extent that base investment is expended on payroll for Louisiana residents employed in connection with a state-certified green project, who are graduates of an institution within the Louisiana Community and Technical College System or graduates of an apprenticeship program registered with the Louisiana Workforce Commission, each investor shall be allowed an additional tax credit of one percent of such payroll.

§3085. Tax credit

B.(1)(a) The tax credit shall be calculated by the commissioner as seventy-five percent of the person's investment for the purposes of earning tax credits.

Section 7. (A) Except as provided for in Subsection (B) of this Section, the provisions of Sections 1, 2, and 3 of this Act shall apply to a claim for a credit on any return filed on or after July 1, 2015, but before June 30, 2018, regardless of the taxable year to which the return relates.

(B) The provisions of Sections 1, 2, and 3 of this Act shall not apply to an amended return filed on or after July 1, 2015, but before June 30, 2018, relating to a credit properly claimed on an original return filed prior to July 1, 2015.

(C) If a return is filed after July 1, 2015, but before June 30, 2018, for which a valid filing extension has been allowed prior to July 1, 2015, then any portion of the credit reduced by the provisions of Sections 1, 2, or 3 of this Act shall be allowed as a credit in the amount of one-third of the reduced portion of the credit on the taxpayer's return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

Section 8. The provisions of Sections 1, 2, and 3 of this Act shall become effective on July 1, 2015 and shall remain effective
through June 30, 2018. The provisions of Sections 4, 5, and 6 of this Act shall become effective on July 1, 2018 and shall apply to original returns filed on or after July 1, 2018."
