

JACK DONAHUE
STATE SENATOR

For Immediate Release
Tuesday, October 9, 2012

**Senator Jack Donahue's statement regarding the planned demonstration
at his office tomorrow:**

"I am wholeheartedly committed to protecting Southeast Louisiana Hospital. I am in continuing negotiations with the administration in an effort to keep the facility open on the strong merits of the hospital. The committee is welcomed to promote its message at my office on Wednesday, but they already have an ally in me and I am quite committed to saving this hospital. The committee can further our mutual agenda by letting its voice be heard in Baton Rouge and throughout our medical community."
