<p>Requests all agencies to engage in a thorough review of private contracts to identify underperforming and low-priority contracts. Following this review, the agencies should determine the following: whether the contract is productive and fulfills an agency mission, if the contracted activities can be performed in-house with existing staff and budget, or if the activities associated with the contract should be eliminated entirely to generate costs savings. Agency heads should take immediate action and publish an online overview report with the findings of this review thirty days before the 2010 Legislative session.</p>	<p>State agencies.</p>		<p>Executive order.</p>
