A provider seeking to qualify the area for protection pursuant to this Subsection shall also provide the office with evidence of plans to deploy within eighteen months, which shall include detailed project plans, schedules, detailed budgets, or executive affidavits. Providers that block competitive bidding for GUMBO funding through credible evidence of intent to build shall be required to sign a commitment with penalties for failure to execute.

(2) A provider seeking to privately fund broadband deployment in accordance with this Subsection is required to construct and provide deployable broadband service within the eighteen-month period to at least eighty percent of the designated locations.

(3)(a) The office shall require any provider seeking to privately fund broadband deployment in accordance with this Subsection to furnish a bond to guarantee the faithful performance of work.

(b) The performance bond required by this Paragraph shall be in an amount equal to the cost of construction and deployment.

(4) If a provider fails to perform as required by this Subsection and the performance bond is due, the provider shall be ineligible for any state-administered federal grant program designated for broadband development services.

(5)(a) A local governing authority may submit, in writing, to the office an objection to any provider that seeks to bid to deploy broadband services in the local governing authority's area if the provider has received a letter grade rating of "D" or "F" from the Better Business Bureau.

C. In future program years, the deadline for submitting the census blocks, shapefile areas, individual addresses, or portions thereof shall be established by the office, but shall not be less than sixty days prior to the beginning date of the application period. This will enable the office to update maps and advise applicants as to the unserved areas of the state that are ineligible for consideration in that program year.

~~C~~: D. The office shall only utilize the data to update maps of census blocks, shapefile areas, individual addresses, or portions thereof and to reflect the census blocks, shapefile areas, individual addresses, or portions thereof as being served.

A provider using wireline technology that has facilities in the area or that intends to deploy broadband service within twenty-four months, as a result of receiving public funds specifically for broadband deployment or upon providing the office with evidence of firm plans to privately fund deployment, shall be able to protest ineligibility.

~~F~~: G. The office shall use the provided census blocks, shapefile areas, individual addresses, or portions thereof only for mapping of unserved areas.

~~G~~: H. Upon expiration of the twenty-four month reservation period described in Subsection ~~E~~ F of this Section, a provider that has received a reservation of census blocks, shapefile areas, individual addresses, or portions thereof shall submit written documentation by April thirtieth of the year following the program year that the initiation of activity related to broadband infrastructure will or has begun in the census blocks, shapefile areas, individual addresses, or portions thereof, that have been deemed ineligible by the office due to the existence of a federally-funded project area."
