CHAPTER 35. THE LOUISIANA INTRASTATE RAIL COMPACT

§2170. Short title

This Chapter shall be known and may be referred to as "The Louisiana Intrastate Rail Compact Act."

§2171. Purpose; findings; determinations

A. The development, improvement, expansion, and maintenance of an efficient, safe, and well-maintained system of railways, transitways, and other transportation facilities that promote mobility are essential to Louisiana's economic health and are intended to act as a system that provides a basis for business and industry to compete cost effectively on a regional, national, and global scale in order to provide a high quality of life for the people of this state.

D. Since public funding sources are not providing the state with sufficient revenues to meet all of its transportation needs, parishes and municipalities are hereby encouraged to utilize public-private partnerships as an additional means to assist in financing improvements to the state transportation system, especially the development of a rail travel choice in Louisiana in order to meet regional and local transportation needs.

§2182. Acquisition of lands and property
A. For the purposes of this Chapter, a compact may acquire private or public property and property rights, including rights of access, air, view, and light by gift, devise, purchase, or condemnation by eminent domain proceedings, as the compact may deem necessary for any of the purposes of this Chapter, including but not limited to any lands reasonably necessary for securing applicable permits, areas necessary for management of access, borrow pits, drainage, vegetation areas, real areas, placement access for landowners whose access is impaired due to the construction of a project, and replacement rights-of-way for relocated rail and utility facilities for existing, proposed, or anticipated transportation facilities in the transportation corridor designated by the compact.
B. Any portion of a compact project which is proposed to connect with or otherwise directly affect the operation of any portion of any state highway or any state-designated project shall require department approval.
C. A compact may sell, lease, or otherwise dispose of all or any portion of a project, provided that the sale, lease, or other disposition of a state-designated project shall require department approval. Notwithstanding any law to the contrary, any surplus property may be sold in accordance with procedures adopted by the compact that maximize the price received for such property.
D. The right of eminent domain conferred by this Chapter shall be exercised by each compact in the manner provided by state law.
E. When a compact acquires property for a project, it is not subject to any liability imposed by pre-existing conditions. This Subsection does not, however, affect the rights or liabilities of any past or future owners of the acquired property, nor does it affect the liability of any governmental entity for the results of its actions which create or exacerbate a pollution source. The compact and the Louisiana Department of Environmental Quality may enter into interagency agreements for the performance, funding, and reimbursement of the investigative and remedial acts necessary for property acquired by the compact.

§2183. Public utilities
A. A compact shall have the power to make reasonable regulations for the installation, construction, maintenance, repair, renewal, relocation, and removal of any public utility, railroad, vehicular crossings of railroads, pipeline company, or other entity, in, on, along, over, or under a project. Whenever a compact shall determine that it is necessary that any public utility facilities which now are, or hereafter may be, located in, on, along, over, or under a project should be relocated in such project, or should be removed from such project, or should be carried along or across the project by grade separation, the owner or operator of such facilities shall relocate or remove the same in accordance with the order of the compact; however, the cost and expenses of such relocation or removal or grade separation, including the cost of installing such facilities in a new location or new locations, and the cost of any land, or any rights-of-way or interest in lands, and any other rights acquired to accomplish such relocation or removal, and the cost of maintenance of grade separation structures, shall be paid by the compact as a part of the cost of such project. In case of any such relocation or removal of public utility facilities, the owners or operators of the same, their successors or assigns, may use and operate such public utility facilities, with the necessary appurtenances, in the new location or new locations, for as long a period, and upon the same terms and conditions, as they had the right to maintain and operate such public utility facilities in their former location or locations.
B. Notwithstanding the provisions of Subsection A of this Section, any utility allowed to exist on a compact's right-of-way at the request of the utility pursuant to R.S. 48:2180(6), shall be responsible for any cost of relocation, removal, or grade separation and any expenses related to the utility facilities in a new location or any rights-of-way. The compact may exercise the powers granted to an economic development district pursuant to R.S. 33:9038.33 and 33:9038.34 as if the compact is such an economic development district; however, no state tax increments shall be dedicated to pay any revenue bonds of any compact or be otherwise used to obligate the state financially to support a compact or projects of a compact.

§2184. Levy special benefit assessments
A. A compact formed under the provisions of this Chapter may levy special benefit assessments for needed public rail transit facilities and services on the property which benefits from those facilities and services.
B. The intrastate rail transit compact facilities and services provide special benefits to parcels of land, and improvements thereon, in the vicinity of rail rapid transit stations, and provide general benefits to the community at large. The board of directors of a compact may exercise their judgment of the proportion of special and general benefits produced by the facilities and of the distribution of the special benefits among parcels of property within the benefit assessment district.

§2185. Local option
The provisions of R.S. 48:2184 shall not apply to any municipality or parish unless the qualified electors of the municipality or parish vote in favor of the application of this Chapter to the municipality or parish.

§2186. Contracts; construction and law enforcement
A. Contracts of a compact for the construction, improvement, repair, or maintenance of any municipal street system project, parish-related project, or project of a compact as defined in R.S. 48:2172(8) shall be awarded pursuant to Chapter 10 of Title 38 of the Louisiana Revised Statutes of 1950.
B. Exceptions shall be made for publicly funded improvements made to private railway property under contract to the compact for a public benefit, where the labor organizations of the private railway have agreements to carry out work on such property. In this case, the compact shall be considered an intangible asset owned by the compact.
C. Notwithstanding any law to the contrary, a compact may contract with a private entity to provide services for design, cost estimate, feasibility studies, operations, management, and construction management services, provided that any contract awarded for such services shall be awarded only after the compact conducts a public notice of intent, and if the proposal submitted by any entity for such services is not adequate, the compact may award contracts for the construction, improvement, repairs, or maintenance of railways to be awarded in any manner other than as set forth in Subsection A of this Section.
D. A compact created hereunder shall contract with the state police, a law enforcement district, or a municipal law enforcement agency for law enforcement and patrol functions.
§2187. Bonds

A. Without reference to any provision of the Constitution of Louisiana and the laws of Louisiana, and as a grant of power in addition to any other general or special law, a compact created pursuant to this Chapter may issue bonds for any corporate purpose and pledge revenues for the payment of the principal and interest of such bonds. A compact is further authorized, in its discretion, to pledge all or any part of any gift, grant, donation, or otherwise any sum of money, and, or assistance from the United States, the state, or any political subdivision thereof, unless otherwise restricted by the terms thereof, all or any part of the proceeds of bonds, credit agreements, instruments, or any other money of the compact, from whatever source derived, for the further securing of the payment of the principal and interest of the bonds.

B. Bonds issued under the provisions of this Chapter shall not be deemed to constitute a pledge of the full faith and credit of the state or of any governmental unit thereof. C. Prior to the issuance of any bonds for a project, a business plan shall be prepared detailing the estimated expenditures or and revenues from the operation of all capital improvements and the time schedule for such expenditures and receipts. The compact shall employ a financial advisor, and the plan shall be recommended by the compact’s financial advisor as fiscally sound and approved by the compact.

E. Bonds shall be sold by the compact at public sale by competitive bid or negotiated private sale and at such price or prices as the compact may determine to be in the best interest of the compact.

F. The issuance of bonds shall not be subject to any limitations, requirements, or conditions contained in any other law, and bonds may be issued without obtaining the consent of the state or any political subdivision, or of any agency, commission, or instrumentalities thereof, except that the issuance of such bonds shall be subject to the approval of the State Bond Commission. The bonds shall be issued in compliance with the provisions of this Chapter.

G. For a period of thirty days after the date of publication of a notice of intent to issue bonds in the official journal of the compact authorized by this Chapter, any person or association of persons shall have the right to contest the legality of the resolution and the legality of the bond issue for any cause, but after that time no one shall have any cause or right of action to contest the legality of the resolution or of the bonds or the security therefor for any cause whatsoever. If no suit, action, or proceeding is begun contesting the validity of the resolution, the bonds or the security therefor within the thirty days herein prescribed, the compact to issue the bonds and to provide for the payment thereof, the legality thereof, and of all of the provisions of the resolution authorizing the issuance of the bonds shall be conclusively presumed to be legal and shall be incontestable. Any notice of intent so published shall set forth in reasonable detail the purpose of the bonds, the security therefor, and the parameters of amount, duration, and interest rates. A compact shall designate any paper of general circulation in its geographical jurisdiction as its official journal. Any suit to determine the validity of bonds issued by the compact shall be brought only in accordance with the provisions of the Bond Validation Procedures Act (R.S. 13:5121 et seq.). In addition, the Bond Validation Procedures Act may also be used to establish the validity of any contract entered into pursuant to R.S. 48:1383.

H. All bonds issued pursuant to this Chapter shall have all the qualities of negotiable instruments under the commercial laws of the state.

I. Any pledge of revenues or other monies made by a compact shall be valid and binding from the time when the pledge is made. The revenues or monies so pledged and thereafter received by the compact shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the compact irrespective of whether such parties have notice thereof.

J. Neither the directors of the board nor any person executing the bonds shall be liable personally for the bonds or be subject to any personal liability or accountability by reason of the issuance thereof, but at all times they shall be entitled to the full faith and credit of the state and shall at all times be exempt from all taxation by the state or any political subdivision thereof, and may or may not be exempt for federal income tax purposes. A compact organized pursuant to this Chapter is hereby authorized to provide by resolution for the issuance of refunding bonds of the compact for the purpose of refunding any bonds then outstanding and issued by the compact, and to authorize the issuance of such refunding bonds, including but not limited to bond counsel, issuer counsel, financial advisors, and fiduciaries.

M. A compact created hereunder shall have the authority to employ all professionals it deems necessary in the issuance of its bonds, including but not limited to bond counsel, issuer counsel, financial advisors, and fiduciaries.

This Chapter does and shall be construed to provide a complete and additional method for the issuance of bonds. No proceeding, hearing, notice, or approval shall be required for the issuance of any bonds or any instrument as security therefor, except as provided herein. The provisions of this Chapter shall be liberally construed for the accomplishment of its purpose.

Upon the later of payment in full of all bonds and the interest thereon, the deposit in trust for that purpose and the municipal project is in a condition of maintenance satisfactory to the municipality, said project and any property acquired as part of the project costs shall be transferred by the compact to and shall thereby be conveyed in full ownership to the respective municipality, and the municipality shall assume jurisdiction and control of the project, which shall then become part of the municipal road system and be subject to maintenance, control, and operation of the municipality as an integral part of the municipal road system, and the municipality, in its discretion, may provide that any toll or fee collected may be continued for the purpose of maintenance. Upon the later of either the payment in full of all bonds and the interest thereon, or the deposit in trust for such purpose, or the final resolution of any disputes or litigation pending against a compact on such transfer and conveyance date, the existence of the compact shall terminate. From the date of such transfer and conveyance of the project, the compact shall continue to exist to dispose of any unresolved litigation not related to the day-to-day management of the project. If no such litigation is pending on the date the project transfers and conveys, the compact shall terminate on the transfer and conveyance date.

B. When bonds issued for any municipal-designated project and the interest thereon has been paid in full, or sufficient funds have been deposited in trust for that purpose and the municipal project is in a condition of maintenance satisfactory to the municipality, said project and any property acquired as part of the project costs shall be transferred by the compact to and shall thereby be conveyed in full ownership to the respective municipality, and the municipality shall assume jurisdiction and control of the project, which shall then become part of the municipal road system and be subject to maintenance, control, and operation of the municipality as an integral part of the municipal road system, and the municipality, in its discretion, may provide that any toll or fee collected may be continued for the purpose of maintenance. Upon the later of either the payment in full of all bonds and the interest thereon, or the deposit in trust for such purpose, or the final resolution of any disputes or litigation pending against a compact on such transfer and conveyance date, the existence of the compact shall terminate. From the date of such transfer and conveyance of the project, the compact shall continue to exist to dispose of any unresolved litigation not related to the day-to-day management of the project. From the date of such transfer and conveyance of the project, the compact shall continue to exist to dispose of any unresolved litigation not related to the day-to-day management of the project. "CHAPTER 10. LOUISIANA CARBON CAPTURE AND ENHANCED OIL RECOVERY ACT

§1001. Short title

This Chapter shall be known and may be cited as the "Louisiana Carbon Capture and Enhanced Oil Recovery Act."

§1002. Policy; jurisdiction

A. It is declared to be in the public interest for a public purpose and the policy of Louisiana that:

(1) The capture and geologic sequestration of carbon dioxide will benefit the citizens of the state and the state's environment by reducing greenhouse gas emissions;

(2) Carbon dioxide is a valuable commodity to the citizens of the state through its use for enhanced oil or gas recovery.

(3) The citizens of the state and the state's economy and environment will benefit from industrial processes that will capture significant amounts of carbon dioxide for use in enhanced oil recovery.

(4) It is the public policy of Louisiana and the purpose of this Chapter to provide for and enable the development of projects which produce carbon dioxide as a by-product that is captured and suitable for injection for enhanced oil or gas recovery.

B. The secretary shall have jurisdiction and authority over all persons and property necessary to enforce effectively the provisions of this Chapter relating to carbon dioxide produced as a by-product and captured by qualified low carbon energy projects.
§1003. Definitions

Unless the context otherwise requires, the words defined in this Section shall have the following meaning when found in this Chapter:

(1) "Carbon dioxide" means anthropogenically sourced carbon dioxide including its derivatives and all mixtures, combinations, and phases, whether liquid or gaseous, stripped, segregated, or divided from any other fluid stream thereof.

(2) "Department" means the Department of Natural Resources.

(3) "Enhanced oil or gas recovery" means the use of carbon dioxide for purposes of tertiary or secondary recovery of oil or gas.

(4) "Fund" means the Carbon Dioxide Project Incentive Fund established in R.S. 30:1005.

(5) "Gas" has the same meaning as provided in R.S. 30:3(5).

(6) "Oil" has the same meaning as provided in R.S. 30:3(4).

(7) "Person" means any natural person, partnership, corporation, voluntary association, trust, estate, limited liability company, or other entity, receiver, tutor, curator, executor, administrator, fiduciary, or representative of any kind.

(8) "Qualified low carbon energy project" means a project that produces at least two hundred fifty thousand tons per year of carbon dioxide and captures at least fifty percent of such eligible carbon dioxide produced by such project suitable for injection for enhanced oil or gas recovery.

(9) "Secretary" means the secretary of the Department of Natural Resources.

§1004. Duties and powers of the secretary; rules and regulations

A. The department's actions under this Chapter shall be directed and controlled by the secretary. In order to encourage enhanced oil or gas recovery utilizing injection of carbon dioxide, the secretary shall have the authority to certify, based on the evaluation of the technology assessment division of the department, any project as a qualified low carbon energy project if the secretary determines that the project shall meet the requirements of R.S. 30:1003(8).

B. Upon making such determination, the secretary shall issue a certificate to the project that such project is a qualified low carbon energy project.

C. Upon issuance of the certificate certifying a project as a qualified low carbon energy project, the secretary shall make the monies in the fund available to any qualified low carbon energy project, in accordance with an agreement with the department, after its commercial operation date, as provided in R.S. 30:1005.

D. Notwithstanding any provision of law to the contrary, the secretary shall provide a qualified low carbon energy project with monies from the fund that are generated through enhanced oil or gas recovery utilizing carbon dioxide from such project. Monies in the fund that are generated through enhanced oil or gas recovery attributable to one project shall not be provided to or for the benefit of another project.

E. Once the secretary issues the certificate and determines the appropriate recipient of monies from the fund, such monies are dedicated and obligated to the purposes and uses authorized by this Chapter and may not be used for any other purpose.

§1005. Carbon Dioxide Project Incentive Fund

A.(1) There is hereby established a fund in the custody of the state treasurer to be known as the Carbon Dioxide Project Incentive Fund, hereinafter referred to as the "fund", which shall be administered by the secretary, who shall make disbursements from the fund solely in accordance with the purposes and uses authorized by this Chapter.

(2) The fund shall not be used for any other governmental purposes, nor shall any branch of government be allowed to borrow any portion of the funds. It is the intent of the legislature that this fund and its increments shall remain intact and inviolate.

(3) The monies in the fund shall be invested by the treasurer in the same manner as monies in the state general fund. All interest earned on the money invested from the fund by the state treasurer shall be credited to the fund. All unexpended and unencumbered monies in the fund at the end of the fiscal year shall remain in the fund, except as provided in Subsection E of this Section.

B. At the time the secretary certifies a project as a low carbon energy project, the secretary, with the approval of the State Mineral and Energy Board, shall negotiate with the project a percentage of the royalties, rentals, and bonuses, but not severance taxes, due to the state and attributable to enhanced oil or gas recovery related to injection of carbon dioxide produced from qualified low carbon energy projects shall be deposited into the fund after commercial operation of the project, but only after the amount provided in Article VII, Section 10.3(A)(2)(a) of the Constitution of Louisiana and R.S. 39-94(A)(2)(a), referred to as the "base", has been satisfied each fiscal year, and which percentage shall be applied only to the increase in production of oil or gas resulting from the injection of such carbon dioxide. No bonuses or revenues from production of oil or gas existing at the time such enhanced oil or gas recovery is begun shall be deposited into the fund. However, no negotiated rate shall be authorized until reviewed and approved by the Joint Legislative Committee on the Budget.

C. The royalties, rentals, bonuses and payments due to the state from a qualified low carbon energy project shall be deposited into the fund and may be utilized by the secretary, as provided in R.S. 30:1004.

D. The fund shall not exceed thirty-five million dollars per qualified low carbon energy project, on an average daily basis for the period of twelve consecutive months, and, if the monies in the fund exceed such amount, any excess monies in the fund shall be transferred by the secretary to the general fund. However, such transfer shall not occur more than once every twelve consecutive months.

E.(1) The total amount of incentive money to be made available from the fund to a qualified low carbon energy project shall be three hundred fifty million dollars per project.

(2) After the total amount of incentive monies have been provided with respect to any qualified low carbon energy project, no royalties, rentals, bonuses, or payments due to the state produced by enhanced oil or gas recovery attributable to injection of carbon dioxide produced from such qualified low carbon energy project shall be deposited into the fund.

F. The secretary shall keep accurate records of all receipts and disbursements related to the administration of the fund, and shall be authorized to require any qualified low carbon energy project to provide an annual accounting of any monies received from the fund.

The carbon dioxide produced by a qualified low carbon energy project and utilized in enhanced oil or gas recovery pursuant to the provisions of this Chapter shall be metered or otherwise measured to provide an accurate tracking of the amount of such carbon dioxide so utilized. However, the operator conducting the enhanced oil or gas recovery activities shall be permitted to physically inject, for purposes of enhanced oil or gas recovery under the provisions of this Chapter, carbon dioxide, whether anthropogenic or naturally occurring, other than the carbon dioxide produced by a qualified low carbon energy project, provided the operator can show to the secretary's satisfaction that the metered or measured amount of carbon dioxide received by the operator from a qualified low carbon energy project matches the amount of other carbon dioxide utilized in the enhanced oil or gas recovery operations.

Section 2. R.S. 39-94(A)(2)(a)(iv) is hereby enacted to read as follows:

§94. Budget Stabilization Fund

A. There is hereby created in the state treasury a special fund to be designated as the Budget Stabilization Fund, hereinafter referred to in this Section as the "fund", which shall consist of all money deposited into the fund in accordance with Article VII, Section 10.3 of the Constitution of Louisiana. Money shall be deposited in the fund as follows:

* * *

(2) All revenues received in each fiscal year by the state in excess of eight hundred fifty million dollars, hereinafter referred to as the "base", as a result of the production of or exploration for minerals, hereinafter referred to as "mineral revenues", including severance taxes, royalty payments, bonus payments, or rentals, and excluding such revenues designated as nonrecurring pursuant to
Article VII, Section 10(B) of the Constitution of Louisiana, any such revenues received by the state as a result of grants or donations when the terms or conditions thereof require otherwise and revenues derived from any tax on the transportation of minerals, shall be deposited in the fund after the following allocations of said mineral revenues have been made:

(iv) As provided in Chapter 10 of Title 30 of the Louisiana Revised Statutes of 1950.
