AN ACT
To enact R.S. 37:1743.1, relative to certain healthcare providers; to restrict the use of the title "Doctor" or "Dr." by certain healthcare providers; to provide for procedures and terms; and to provide for related matters.

The bill was read by title. Returned from the House of Representatives with amendments:

HOUSE COMMITTEE AMENDMENTS

Amendments proposed by House Committee on Health and Welfare to Engrossed Senate Bill No. 320 by Senator Martiny
(12) "Physician", except as provided in R.S. 37:3244(G) means a person who is currently practicing obstetrics and is licensed to practice medicine or osteopathy in Louisiana.

(15) "Certified professional midwife" means a person certified by the North American Registry of Midwives.

(16) "Low risk patient" means an individual who is at low or normal risk of developing complications during pregnancy and childbirth as evidenced by the absence of any preexisting maternal disease or disease arising during pregnancy or such other conditions as the board may identify in rules.

§3244. Scope of practice

B. The licensed midwife may provide care to low risk patients as defined by the board and as determined by physician evaluation and examination to be essentially normal for pregnancy and childbirth. Such care includes prenatal supervision and counseling; preparation for childbirth; and supervision and care during labor and delivery of the mother and the newborn in the immediate postpartum period if progress meets criteria generally accepted as normal as defined by the board.

C. The physician who performs the evaluation and examination required by this Section shall disclose the reason and effect of the evaluation and examination to the patient and midwife using a form developed by the board for this purpose.

D. A licensed midwife shall refer to a physician for risk assessment a patient whose progress at any time during pregnancy or the postpartum period deviates from criteria generally accepted as normal as defined by the board, including but not limited to diseases such as gestational diabetes, and preeclampsia or conditions such as post-term pregnancy, forty-two weeks of completed pregnancy, multiple births, or breech presentation.

E. A patient has the right to refuse a licensed midwife's referral to any physician; provided, however, that a licensed midwife shall not knowingly accept or thereafter maintain responsibility for the care of a woman who does not obtain physician referral or when the results of the referral indicate that she no longer qualifies as a low risk patient.

F. Prior to providing any services, a licensed midwife shall obtain informed consent, in writing, of the patient in a manner and form prescribed by the board which shall include but not be limited to the following:

(1) The name and license number of the licensed midwife.
(2) The patient's name, address, telephone number, and the name of the patient's primary care provider if the patient has one.
(3) A statement that the licensed midwife is not an advanced practice registered nurse, physician, or physician's assistant.
(4) A description of the education, training, continuing education, and experience of the licensed midwife.
(5) A description of the licensed midwife's philosophy of practice.

A statement recognizing the obligation of the licensed midwife to provide the client, upon request, separate documents describing the law and regulations governing the practice of midwifery, including the requirement for an evaluation and examination by a physician, the protocol for transfer or mandatory transfer, and the licensed midwife's personal written practice guidelines.

(7) A description of the protocol for transfer to a hospital and disclosure of the hospital with which the licensed midwife has a current transfer agreement.

(8) A complete and accurate description of the services to be provided to the patient.

(9) Whether the licensed midwife maintains a professional liability policy and if insurance is maintained a description of the liability conditions and limits of such insurance.

Any additional information or requirement which the board deems necessary to protect the health, safety, or welfare of the patient.

G. A person may be issued a license as a licensed midwife, or permit as an apprentice midwife, or a senior apprentice midwife, such that:
§3245. Permits and licenses

D. Upon meeting the educational and clinical experience requirements provided by the board, a person may apply for a midwifery license by submitting the following:

1. An application for the license and to take the next qualifying examination; provided, however, the board may issue a midwifery license to an applicant who holds current certification by the North American Registry of Midwives or such other certifying organization as the board may subsequently approve.

§3248. Persons not affected

A. Any person authorized by the Louisiana State Board of Nursing to practice as a certified nurse midwife in the state shall not be affected by the provisions of this Chapter.

B. Any student pursuing a course of study in an accredited midwifery education program that is approved by the board who provides midwifery services, provided that such services are an integral part of the student’s course of study and are performed under the direct supervision of a physician, certified nurse midwife, or a licensed midwife, and the student is designated by a title which clearly indicates his status as a student or trainee.

§3255. Examination

D. The examination administered by the North American Registry of Midwives, or such other certifying examination as the board may subsequently approve, shall be accepted by the board as a qualifying examination for purposes of midwifery licensure.

§3258. Professional liability

A. Physician evaluation and examination as provided in R.S. 37:3244 shall be deemed to constitute a risk assessment. A physician performing a risk assessment is responsible only for determining that at the time of the risk assessment the individual is at low or normal risk for developing complications during pregnancy and childbirth.

B. Physician risk assessment as defined in this Section shall not create either of the following:

1. A physician-patient relationship or any legal duty, responsibility, or obligation by the physician to provide continuing care.

2. A legal relationship between the physician and the licensed midwife or any duty, responsibility, or obligation by the physician to supervise, collaborate, back-up, or oversee the licensed midwife’s care of the patient.

C. No physician or other health care provider as defined in R.S. 37:3256, any licensed midwife failing to satisfy the provisions of this Section shall be subject to a civil fine not to exceed one hundred dollars each day the report is filed late. In no case shall the fine exceed five hundred dollars.

AMENDMENT NO. 6
On page 141, line 3, between "in" and "this" insert "Sections 1 through 18 of"

AMENDMENT NO. 7
On page 142, between lines 15 and 16, insert the following: "Section 19. The legislature hereby recognizes that the Constitution of Louisiana provides in Article VII, Section 11, that the governor shall present to the legislature a five year Capital Outlay Program and request implementation of the first year of such program, and that the capital outlay projects approved by the legislature are to be made part of the comprehensive state capital budget which shall, in turn, be adopted by the legislature. Further, all projects in such budget adopted by the legislature requiring bond funds must be authorized as provided in Article VII, Section 6 of the Constitution of Louisiana. The legislature finds that over a period of years the legislature has enacted numerous bond authorizations, but due to inflation and the requirements of specificity of amount for each project, impossibility, or impracticability, many of the projects cannot be undertaken. All of the unissued bonds must be listed in the financial statements of the state prepared from time to time and in connection with the marketing of bonds, and are taken into account by rating agencies, prospective purchasers, and investors in evaluating the investment quality and credit worthiness of bonds being offered for sale. The continued carrying of the aforesaid unissued bonds on the financial statements of the state under the above described circumstances operates unnecessarily to the financial detriment of the state. Accordingly, the legislature deems it necessary and in the best financial interest of the state to repeal all Acts, except any Act authorizing the issuance of refunding bonds and Act 41 of the 2006 First Extraordinary Session, shall provide bond authorization, as required by Article VII, Section 6 of the Constitution of Louisiana, for those projects to be funded totally or partially by the sale of general obligation bonds in the state which cannot be issued for the projects contemplated, and in their stead to reauthorize general obligation bonds of the state for those projects deemed to be essential, and to authorize new projects."
full force and effect and shall not be affected by the provisions of
Sections 19 through 25 of this Act.  In addition, the repeal shall not
in any manner affect the validity of any bonds heretofore issued
pursuant to any of the bond authorizations repealed hereby.

Section 22.  To provide funds for certain capital improvement
projects the State Bond Commission is hereby authorized pursuant to
Article VII, Section 6 of the Constitution of Louisiana to issue
general obligation bonds or other general obligations of the state for
capital improvements for the projects, and subject to any terms and
conditions set forth on the issuance of bonds or the expenditure of
moneys for each project as is provided for in the 2012 Capital Outlay
Act.

Section 23.(A)  To provide funds for certain capital improvement
projects authorized prior to this Act and by this Act, which projects are
designed to provide for reimbursement for debt service on general obligation bonds, the State Bond Commission is
hereby authorized pursuant to Article VII, Section 6 of the
Constitution of Louisiana, to issue general obligation bonds of the
state to provide for capital improvements for the projects, and subject to any terms and conditions set forth on the issuance of bonds or the expenditure of moneys for each such project as is provided for in the 2012 Capital Outlay Act the terms of which require such reimbursement of debt service.
(B)  Without affecting, restricting, or limiting the pledge herein
made of the full faith and credit of the state of Louisiana to the
payment of the general obligation bonds authorized by this Section and
without affecting, restricting, or limiting the obligation of the
state to pay the same from moneys pledged and dedicated to and paid
into the Bond Security and Redemption Fund, designated student fees or revenues or other revenues in an amount equal to the debt service on such project bonds in such fiscal year.  In addition, the applicable management board, governing body, or state agency for which any of such project bonds are issued, in the fiscal year in which such project bonds are issued and in each fiscal year thereafter until such project bonds and the interest thereon are paid, shall transfer and make available to the State Treasury, for deposit in the Bond Security and Redemption Fund, designated student fees or revenues or other revenues in an amount equal to the debt service on such project bonds in such fiscal year.  In addition, the applicable management board, governing body, or state agency, in the fiscal year in which such project bonds are issued and in each of the nine immediately succeeding fiscal years thereafter, shall transfer and make available to the state treasury from designated student fees or revenues or other revenues, for credit to a reimbursement reserve account for such project bonds which shall be established in an account designated in the reimbursement contract hereafter provided for, moneys in an amount equal to one-twelfth of the average annual debt service on such project bonds, and each such reimbursement reserve account thereunder shall be maintained in such minimum amount by further transfers, if necessary, from designated student fees or revenues or other revenues by the applicable management board, governing body, or state agency to the state treasury.  Each such reimbursement reserve account shall be used, if necessary, solely to make the reimbursement payments hereunder obligated to be made to the state treasury.  When the general obligation bonds and the interest thereon issued hereunder have been paid, any amount remaining in the reimbursement reserve account, as prorated to such authorized project, shall be transferred by the state treasurer to the applicable management board, governing body, or state agency.

(C)  No project bonds authorized by this Section shall be issued for
any authorized project unless and until a reimbursement contract has been entered into and executed between the applicable management board, governing body, or state agency and the State Bond Commission pertaining to the reimbursement payment and reimbursement reserve account payments for such project.  The contract shall require payment into the state treasury of designated student fees or revenues or other revenues in an amount sufficient to reimburse the cost to the applicable management board and in such amounts as shall be sufficient to reimburse the costs of the principal, interest, and premium, if any, obligated to be paid by the state on such project bonds.  The State Bond Commission shall not be required to execute any such reimbursement contract unless the estimates and projections of the designated student fees or revenues or other revenues available for payment into the state treasury hereunder for the authorized projects are sufficient to reimburse the costs of the principal, interest, and premium, if any, on the project bonds.  A reimbursement contract hereunder shall be authorized by resolution of the applicable management board, governing body, or state agency, or board or by act of the chief executive officer if no governing board exists.

This authorization shall provide for the dates, amounts, and other details for the payments required to be made to the state treasury and for the reserve account.  The authorization may contain such covenants with the State Bond Commission regarding the fixing of rates for fees and charges or revenues and such other covenants and agreements with the State Bond Commission as will assure the required payments to the state treasury.  The contract shall be subject to approval by the Office of the Attorney General and the State Bond Commission and, when so accepted and approved, shall conclusively constitute and be the reimbursement contract for an authorized project, as required hereunder.

(D)  The obligation to make the reimbursement payments as required by a reimbursement contract may be represented by the issuance of the applicable management board, governing body, or state agency of its nonnegotiable revenue obligation in the form of a bond or other evidence of indebtedness, hereinafter referred to as "reimbursement bond".  The reimbursement bond shall be issued in a single bond form, without coupons, in the principal amount equal to the aggregate principal amount of project bonds, shall be registered in principal and interest in the name of and be payable to the State Bond Commission, shall bear interest at a rate or rates equal to the interest rate or rates payable on the project bonds, and shall be payable as to principal and interest at such times, in such manner, from such revenues, or other revenues, and be subject to such terms and conditions as shall be provided in the

(E)  In addition to the other payments herein required, reimbursement contracts shall provide for the setting aside of sufficient student fees or revenues or other revenues in a reserve fund, so that within a period of not less than ten years from date of issuance of project bonds there shall be accumulated in a reserve fund moneys equal to a sum not less than the average annual debt service requirements on such project bonds.  Monies in the reserve fund may be used for the purpose of remedying or preventing a default in making the required payments under a reimbursement contract.  The reserve fund required hereunder may consist of a reserve fund hereafter established to secure payments for reimbursement bonds of the applicable management board, governing body, or state agency, or issued on a subordinate lien basis to outstanding bonds, or a combination thereof, and may include and contain such covenants with the State Bond Commission for the security and payment of the reimbursement bonds and such other customary provisions and conditions for their issuance by the applicable management board, governing body, or state agency as are authorized and provided for by general law and by this Section.  Until project bonds for an authorized project have been paid, the applicable management board, governing body, or state agency shall impose fees and charges in an amount sufficient to comply with the covenants securing outstanding bonds and to make the payments required by the reimbursement contract.

(F)  When the balance of reimbursement bond proceeds, for a project, are allocated to another project, the State Bond Commission is authorized to make the appropriate amendment to the
reimbursement contract with the agency making the reimbursement payments.

Section 24. The bonds authorized to be sold by the State Bond Commission pursuant to this Act shall be issued and sold in conformity with the provisions of Article VII, Section 6 of the Louisiana Constitution, R.S. 39:1361 through R.S. 39:1367, and R.S. 39:1401 through R.S. 39:1430.1, and any amendments thereto adopted prior to, at the same time as, or subsequent to, the effective date of this Act. However, the provisions of R.S. 39:1365(9) shall not apply to any bonds issued hereunder in the form of variable rate and/or tender option bonds and that said bonds need not be issued in serial form and may mature in such year or years as may be specified by the State Bond Commission. Should any provision of this Act be inconsistent with any provision of the Louisiana Revised Statutes of 1950, the provision of this Act shall govern. In connection with the issuance of the bonds authorized hereby, the State Bond Commission may, without regard to any other laws of the state relating to the procurement of services, insurance, or facilities, enter into contracts upon such terms as it deems advantageous to the state for (1) the obtaining of credit enhancement or liquidity devices designed to improve the marketability of the bonds and (2) if the bonds are structured as variable rate and/or tender option bonds to provide the services and facilities required for or deemed appropriate by the State Bond Commission for such type of bonds, including those of tender agents, placement agents, indexing agents, remarketing agents, and/or standby bond purchase facilities. The cost of obtaining credit enhancement or liquidity devices and fees for other services set forth in this Section shall, if authorized by the State Bond Commission, be paid from the Bond Security and Redemption Fund as a requirement with respect to the issuance of the bonds authorized hereby. The bonds shall be general obligations of the state of Louisiana, to the payment of which, as to principal, premium, if any, and interest, as and when the same become due, the full faith and credit of the state is hereby irrevocably pledged. These bonds shall be secured by monies in the Bond Security and Redemption Fund and shall be payable on a parity with bonds and other obligations heretofore and hereafter issued which are secured by that fund. The maximum interest rate or rates on such bonds, and their maturities, shall be determined by the State Bond Commission. The state treasurer shall invest all bond proceeds until disbursed.

Section 25. The provisions, items, and projects contained in this Act are severable and if any provision, item, or project contained herein, or the application of any such provision, item, or project, is held invalid, such invalidity shall not affect other provisions, items, projects, or applications of the Act which can be given effect without the invalid provision, project, item, or application.

Section 26. Unless specifically repealed, Sections 19 through 25 of this Act shall expire, and be considered null and void and of no further effect on June 30, 2013 except as to any bonds authorized herein (1) which have been sold, (2) to which lines of credit have been issued, or (3) for which contracts for construction have been signed."
